

CHAMBER MEMBER EMAIL — SHORT VERSION

Help Build a Safer, Better-Prepared Community

Our Chamber is pleased to share information about the **Bandana-Guide Community Safety Initiative**—an effort combining practical safety education with building a locally focused Community SafetyNet.

Safety Bandana-Guides provide ready-at-hand information for First Aid, Home Safety, Personal Safety & Defense, Vehicle Emergencies, Water Safety, Wilderness Survival and more.

Purchases also help build a local SafetyNet designed to provide a temporary helping hand to neighbors experiencing genuine, unexpected emergencies.

Residents can use their ZIP Code as their **Safety Code** when ordering, helping connect designated purchase proceeds to their community.

Everything happens online. Businesses aren't required to stock products, process orders or collect money.

Sometimes strengthening a community starts simply by helping people know what's available. We've even made it easy for you to spread the word with ready-to-use emails, social media posts, posters, and other materials available for download on the Bandana-Guide website.
