A Community Safety Resource Worth Sharing

Hello,

Our department would like to introduce residents to the Community Safety Initiative, a program combining practical safety education with a community-based emergency assistance fund called the Bandana-Guide SafetyNet.

The Initiative offers Safety Bandana-Guides—portable, durable reference tools containing useful information about personal safety and emergency preparedness and response. Topics include First Aid, Personal Safety & Defense, Home Safety, Food Safety and many other important safety topics.

Through participating purchases, a portion of the proceeds is reserved for a local SafetyNet to help you and your neighbors when unexpected emergencies arise.

Residents can learn more at **www.Bandana-Guide.com** and enter their ZIP code as their Safety Code to identify their community.

We invite you to explore this opportunity to strengthen safety awareness and encourage neighbors helping neighbors.
