Safety Education That Helps Build a Stronger Community

What if learning about safety could also help neighbors facing unexpected emergencies?

That's the idea behind the **Bandana-Guide Community Safety Initiative**.

Bandana-Guides are portable safety education guides covering important subjects such as First-Aid, Home Safety, Personal Safety & Defense, Food Safety, Vehicle Safety, and many other everyday safety topics that teach emergency preparedness and response.

Each Guide purchased online for $19.95 helps support two important goals: 1) improving safety awareness for families and communities, and 2) building a local **Community SafetyNet**.

Up to $10 from each purchase is allocated to the community identified by the purchaser's Safety Code, typically their ZIP Code.

The Community SafetyNet is designed to provide one-time assistance to local individuals and families facing unexpected emergencies, such as storm damage, house fires, a medical event, or other serious hardships.

Schools and student organizations can participate simply by sharing information about the Initiative.

No product sales or money collections are required.
