

COMMUNITY-FACING EMAIL — FULL VERSION

A Simple Idea for a Safer, Stronger Community

Our Chamber believes strong communities are built when businesses, organizations and neighbors work together.

That's why we'd like to introduce the **Bandana-Guide Community Safety Initiative**.

The Initiative combines practical safety education with a simple neighbor-helping-neighbor concept.

Safety Bandana-Guides are portable emergency reference tools designed to keep important safety information ready at hand when it may be needed most.

Topics include First Aid, Home Safety & Protection, Personal Safety & Defense, Vehicle Safety & Roadside Repair, Water Safety, Wilderness Survival and more.

Every purchase can also help strengthen a **Community SafetyNet**—a locally focused emergency fund designed to provide temporary assistance to neighbors facing genuine, unexpected emergencies.

How does your purchase know which community to help? Your **Safety Code**.

When purchasing independently, simply enter your ZIP Code as your Safety Code. That connects designated purchase proceeds with your local community.

It's a simple idea:

Become better prepared. Help build your community's SafetyNet. Help catch a neighbor when an unexpected emergency knocks them off balance.
